| Target Identifier: | TGT-ALPHA-7              | MGRS Grid:      | 30UGC9914906064                    |
| Source Rating:     | A1 (Completely Reliable) | Reporting Unit: | HUMINT Unit 104 (Southern Command) |

## 1. EXECUTIVE MISSION SUMMARY

Observation post reports active refueling and arming of a Karakurt-class corvette (Project 22800) berthed at the Estuary Naval Depot. Vessel is designated TRK-901 in radar telemetry.

## 2. DETAILED FIELD NARRATIVE & SENSOR CORRELATION

- Source observes containerized Kalibr anti-ship missile launchers mounted on the aft deck, concealed under heavy camouflage netting during daylight hours.
- Radar emission signature matches Pozitiv-M 3D air target search radar operating at 9.4 GHz (PRF 1.2 kHz). The vessel was seen departing the estuary berth at 14:15 Z heading 145 degrees towards sector BRAVO.
- Local human sources report 3 fuel bowsers and 2 ammunition transport trucks servicing the quay between 04:00Z and 08:30Z. High-speed tactical escort boat is positioned 200m offshore providing perimeter defensive coverage.

## 3. TACTICAL IMAGERY & RECONNAISSANCE CROPS
