

HUMINT INTELLIGENCE REPORT: HUM-448

Subject: Tactical Cyber Command & Control Node

Report ID:	HUM-448	Date/Time:	2026-09-22T17:40:00Z
Target Identifier:	TGT-DELTA-9	MGRS Grid:	30UGC9915504500
Source Rating:	B1 (Usually Reliable)	Reporting Unit:	Cyber Threat Recon Group

1. EXECUTIVE MISSION SUMMARY

Commercial industrial building compromised and utilized as a tactical C2 cyber injection point by threat actor APT-BEAR.

2. DETAILED FIELD NARRATIVE & SENSOR CORRELATION

- Field surveillance confirmed presence of satellite uplink trucks equipped with encrypted Ku-band satellite dishes parked behind the facility.
- Technical intelligence indicates malicious packet injection targeting coastal radar telemetry feeds, attempting to inject ghost tracks into blue force tactical networks.
- Emergency diesel generators run continuously to power high-density server racks housed inside the subterranean basement level.

3. TACTICAL IMAGERY & RECONNAISSANCE CROPS
